IN THE UNITED STATES PATENT  
AND TRADEMARK OFFICE

In re Patent Application:  
No. 10/731,201  
Applicant: Wilkerson, et al  
Art Unit 3635  
Examiner: J. Chapman

Interview Summary

This is to make of record the Interview kindly granted by the Examiner and held this date. There was a discussion of the basis for rejection of the claims under rejection, at the conclusion of which the Examiner indicated that the instant application would be allowed.

It is assumed that the amendment filed after final will be entered, primarily in order that the coverage of the article claims and method claims will be coextensive (see pages 4 and 5 of that amendment).

In reliance on the Examiner's advice, Applicants will not be filing an Appeal Brief.

Respectfully submitted
